Dude, you don't know it controversial. That is no. Okay. It's very controversial. So I would show again. Okay, let's talk about trans rights. What skills do I want to give my opinion on the coronavirus? Not it from a medical standpoint from a from a sales standpoint. Okay, right. Now what's happening is factories in China are shutting down and like because when the Coronavirus

And obviously anyone that knows anything about the coronavirus the coronavirus has been around for ages. This is a specific train of it strain of it's very and it's just obviously it's coronavirus is just the type of virus exactly the the the conspiracy theory that I saw at that might be in Facebook as well as that aerial shots of China have shown big thermal images of how they're burning all these bodies and actually fatalities are much more than anyone realizes. It's not the

I wonder how many businesses well, I mean, of course we hear about in the news about this economic downturn because of this coronavirus, but I wonder how many businesses have allowed themselves to be almost solely dependent on their supply chain either come in from China or through China because those people they're going to be in serious shit right now. I think they are there. Are ya

Possible that there are people who will get this coronavirus and never have any symptoms at all. So for example, a curious case report was recently published a healthy 20 year old woman living in Wuhan traveled to a different city in China to meet some family a few days later five of her family members were sick. They were infected with coronavirus. She tested positive. She had the virus but a month later she still hadn't shown any symptoms. It's early days.

Anything done and now you get this the idea that this the coronavirus by the time this show comes out in August. The coronavirus will have made its way pretty much across the United States like it's in California now and they say there's like over 8,000 cases that they're monitoring and I don't know how many of them have tested positive but you know, it's coming and it's going to be it's going to be big and people are going to die as they have been in China and all over the world.
