Watch the finale of like say League of Legends. For example, apparently there were a lot more viewers than the Super Bowl. That's really yeah. There's that. Another thing is the highest professional players in Esports. They're getting paid Millions like and maybe not in America per se but in Korea in such in China, they're like, they're like Superman.

Whatchu Community spread coronavirus? I know what I need to do is stay away from Chinese looking people we think in our head we're going to be okay. That's what we think Mickey Mickey. No. Wait, that's what community spread means Community spread means. It's not going to help you to avoid someone from China. Why because some of them China met someone from Death from Denmark some of them Denmark that had coffee with someone from Sweden someone from Sweden then sat down next to a guy from Italy next to a guy from Iran.

Next thing, you know Starbucks becomes a petri dish. Okay. So the idea of community spread the whole point of the whole point Yosef is that that that it can spread by community that now we're finding people who have no links to China. They didn't travel to China. They didn't travel to China. They didn't travel to Iran. They didn't travel to Italy they didn't travel to Singapore. They weren't on the Diamond Princess.

Everything shut down in China. How's it going to affect the fishing industry Bates rods and reels so it's already affecting Beast Coast Derek over because me and him been working on a project and last that we talked it is 45 days behind because of the factory that he uses is been shut down because of the coronavirus so it is going to affect I mean, that's why that's why the stock market is tanking like it is because these companies are scared to death that these

Companies that produce in China aren't going to be able to produce and get Goods to America quick enough. And so they're selling off to avoid any kind of conflict. They might have there. So it's already having an effect on global stock markets and in turn its easily going to have an effect on, you know fishing industry stuff. I think we may see if it gets as bad as everybody says it's going to be I mean I got how God here we go. We're going to start talking about freaking coronavirus like every other person in the world right now. I've heard two conflicting.
