You know, I think that's something moving forward that we have to I think and I think we all can all agree the emphasis. We've got to get the student section closer to the court. You know, I mean Bailey's is student. He knows that like student want to be an impact like those things are exciting people. Look forward to going to a game like that, you know as a student that is your University, you know have some part in it. Bring them closer. It's not that hard. I mean you can't even do that right now that even doing any Renovations take that whole section out the middle put them right there.

Planning for resources Islam takes 10 years and probably another 10 years to actually build it. So we always have to plan 25 years in advance for a population 25 years later and you know similar to what many things happen in the world. We usually plan something for the present and then it doesn't end up working out for object data is currently a PhD student at the University of British Columbia in Vancouver Abhishek is pursuing a PhD

Yeah, so in my heart and soul. I knew I should not be at that spot doing that and I spoke about that in my speech like the whole time. Like I was an honor student I made 90s in his class. I was educated and I didn't graduate but I knew that I was supposed to be in going to Dalhousie. I would see the other students, you know partying because we'd be standing there and I would see the students to hellofax is a very big university town. So I would see the students and I would always pitch.
